

**MR SIMON KUIK**

**Senior Vice President and Head of Sustainability,  
Seatrium Limited  
Chairman, WSH Council (Marine Industries)  
Committee**

Mr. Simon Kuik reports to the Executive Vice President of Strategy and holds the responsibility of heading the Group Sustainability Office. In this role, he is dedicated to developing the company's sustainability strategy and facilitating the seamless integration of Environmental, Social, and Governance (ESG) considerations.

Currently, Simon serves as the President of the Association of Singapore Marine & Offshore Energy Industries (ASMI). He also a distinguished member of several influential industrial councils and esteemed educational institution committees. Notably, he contributes his expertise to the Singapore Maritime Foundation (SMF).

Mr. Kuik's impressive academic background includes a Bachelor of Engineering (First Class Honors) in Marine Technology from the University of Newcastle-Upon-Tyne, England. He further fortified his knowledge with an MBA from the Sloan School of Management at the Massachusetts Institute of Technology, USA.

*Quote: "Ensuring the highest standards of Workplace Safety and Health (WSH) is a fundamental commitment to our employees, stakeholders, and community. By fostering a culture of safety and sustainability, we ensure everyone returns home safely. Let's make safety our top priority!"*
